DETAILED ACTION

Oath/Declaration

1. The declaration filed on Mar. 1, 2002 is acceptable.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kitagawa (6,507,443) in view of Kamo (6,154,323).

Kitagawa discloses in Fig. 3 the claimed invention, but does not disclose the first surface for performing a color correction function, the first surface including a diffraction efficiency improvement mechanism.

Kamo discloses a surface including a diffraction efficiency improvement mechanism is for performing the function of color correction.

Since Kitagawa and Kamo are both from the same filed of endeavor, the purpose disclosed by Kamo would have been recognized in the pertinent art of Kitagawa.

It would have been obvious at the time the invention was made to a person having ordinary skill in the art to modify the Kitagawa's lens in light of Kamo's teaching for the same purpose of color correction as disclosed by Kamo as the same as the applicant does.

Regards claims 5,16, Kitagawa discloses in table 1, the distance between the aperture and the focal plane is less than 6mm.
